Implementing SDG 3.4: Time for Action on NCDs
Sustainable Development Goal 3
Target 3.4

- by 2030 reduce by one-third premature mortality from non-communicable diseases (NCDs) through prevention and treatment, and promote mental health and wellbeing
WHO’s global road map on NCDs

- Global Action Plan for Prevention and Control of NCDs 2013-2020
- National NCD Monitoring Framework
- National Consultation for National Multisectoral Action Plan
- Joint Mission of UN Interagency Task Force-India
- UN General Assembly Comprehensive Review on NCDs
- Joint Mission of UN Interagency Task Force-India
- MoHFW
- UN General Assembly
- World Health Assembly
WHO Resolutions to address NCDs and common risk factors

- Health and the environment: addressing the health impact of air pollution (resolution WHA 68.10)-2015

- Follow-up to the Political Declaration of High-level Meeting of the General assembly on prevention and control of NCDs / Global action plan for prevention and control of NCDs 2013-2020 (resolution WHA 66.10)-2013

- Comprehensive mental health action plan 2013–2020 (resolution WHA 66.8)-2013
WHO Resolutions to address NCDs and common risk factors

• Sustainable health financing structures and universal coverage (resolution WHA 64.9)-2011

• Global strategy to reduce harmful use of alcohol (resolution WHA 63.13)-2010

• Action Plan for the implementation of the Global strategy for the prevention and control NCDs (resolution WHA 61.8)-2008

• Global Strategy for Diet, Physical Activity and Health (resolution WHA 57.17)-2004

• WHO Framework Convention on Tobacco Control (resolution WHA 56.1)-2003
Sustainable development Goals and NCDs

- **Goal 1**: End poverty in all its forms everywhere
- **Goal 2**: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
- **Goal 3**: Ensure healthy lives and promote well-being for all at all ages
- **Goal 5**: Achieve gender equality and empower all women and girls
- **Goal 7**: Ensure access to affordable, reliable, sustainable and modern energy for all
Sustainable Developmental Goals and NCDs

- **Goal 8**: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
- **Goal 11**: Make cities and human settlements inclusive, safe, resilient and sustainable
- **Goal 12**: Ensure sustainable consumption and production patterns
- **Goal 17**: Strengthen the means of implementation and revitalize the global partnership for sustainable development
WHO’s technical support to Ministry of Health and Family Welfare

- National Tobacco Control Programme
- National Programme for Cancer, Diabetes, Cardiovascular diseases and Stroke
- National Mental Health Programme
- National Programme for Health Care of the Elderly
- National Palliative Care Programme
- Addressing comorbidities:
  - TB-diabetes
  - TB-tobacco
TOGETHER
WE CAN PREVENT AND CONTROL
THE WORLD'S MOST COMMON DISEASES

The challenge is unprecedented -- a 25% reduction by 2025 in premature deaths from noncommunicable diseases.

What we know
More than 14 million people between the ages of 30 and 70 die each year from noncommunicable diseases (NCDs). Eighty-five per cent live in developing countries.

- Implementing simple interventions that reduce NCD risk factors will decrease premature deaths by half to two-thirds.
- Health systems that respond to the needs of people with NCDs can reduce mortality by another third to half.

How we are responding
The WHO, together with partners, is spearheading a strategy and has developed institutional building blocks to:

- Engage with leaders to influence policies.
- Strengthen health systems.
- Modify unhealthy behaviors.
- Encourage research.
- Track trends.
- Monitor progress toward preventing and controlling NCDs.

WHO Global NCD Action Plan
A road map with policy options to be implemented from 2013 to 2020 focusing on four modifiable risk behaviors that are linked to four preventable noncommunicable diseases.

RISK FACTORS
- Tobacco use
- Unhealthy diet
- Physical inactivity
- Harmful use of alcohol

DISEASES
- Chronic respiratory diseases
- Cardiovascular disease
- Cancers
- Diabetes

COUNTRIES
- Set national targets
- Develop national action plans
- Monitor results

Support countries to:
- Set national targets taking into account:
  - 9 global themes
  - 6 global indicators
  - 9 progress indicators

- Support countries to:

WHO Global Programme on NCDs
Support countries with policy advice

WHO Global Action Plan for NCDs
Support countries with best knowledge

WHO Global Monitoring Framework
Support countries to mobilize sectors beyond health

WHO Global Coordination Mechanism
Support countries to facilitate collaboration between governments and other partners

UN Task Force for NCDs
